

HydroCoin - User Guide

H2O Digital Wallet (v1.0)

1) Welcome

HydroCoin is a simple digital wallet for H2O.

This guide shows you, step by step, how to create a wallet, sign in, check your balance, send H2O, and log out.

2) Create your wallet

1. Open the app and tap **Create Wallet**.
 2. Enter your **email** and a strong **password**.
 3. The app will generate your unique **HydroCoin address** (it starts with HCW_...).
 - Share this address with people who want to send you H2O.
-

3) Sign in

1. Tap **Login**.
 2. Enter your email and password.
 3. You'll receive a **session token** (used by the app to access your account securely).
-

4) Check your balance

1. Tap **Check Balance**.
 2. The balance will be shown in H2O.
-

5) Send H2O

1. Tap **Send Coins**.
 2. Enter the **recipient address** and the **amount** of H2O.
 3. Confirm.
 - Your balance decreases, and the recipient receives H2O instantly.
-

6) Log out

1. Tap **Logout**.
 2. This will close your session securely.
-

You now know how to create a wallet, login, send H2O, and logout safely.
